DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

I. Claims 1, 27, 62, 2-4, 31-33, 63 are directed at a system for detecting fraud in a prepaid system, where said system is a prepaid calling system.

II. Claims 1, 27, 62, 5, 6, 28-30, and 67 are directed at a system for detecting fraud in a prepaid system, including refill information of a subscriber account.

III. Claims 1, 27, 62, 7, and 34-45 are directed at a system for detecting fraud in a prepaid system, where said system is a wireless communication system.

IV. Claims 1, 27, 62, 8-16, 68-70 are directed at a system for detecting fraud in a prepaid system, including the use of information regarding unprocessed service data.

V. Claims 1, 27, 62, 17-19, 56-61, 64-66 are directed at a system for detecting fraud in a prepaid system, including a comparison of account balances to a predetermined threshold value.

VI. Claims 1, 27, 62, 20-24, and 46-50 are directed at a system for detecting fraud in a prepaid system, including a hierarch of fraud determinations.

VII. Claims 1, 27, 62, 25, and 51-55 are directed at a system for detecting fraud in a prepaid system, including prevention of use by the subscriber.

VIII. Claims 1, 27, 62, and 26 are directed at a system for detecting fraud in a prepaid system, including determining charges with respect to the service system.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
